Note for software associated with Oral Presentations:

Visual support for oral presentations will only be allowed in PowerPoint format for PCs (Apple-based format will not be acceptable). PowerPoint presentations should be MS-Office 2013 or earlier version to ensure greatest compatibility with anticipated projection equipment and computer support. As always, give credit where credit is due by naming the image owner. If an image is copyrighted, then get permission from the image owner before using it.

IGNITE PRESENTATIONS:

Want to present at the Conference but do not want to prepare a full presentation or poster? The Partners invite you to present at the Ignite session on Thursday February 15th. These short to-the-point talks provide a great platform for people to quickly share project updates, notes from the field, or other important topics that don't require a full 20-minute presentation. IGNITE presentations are exactly 5 minutes and contain exactly 20 slides. The slides advance automatically after each slide is displayed for 15 seconds. IGNITE sessions have been well received at past meetings and are a fun way to get involved. Simply submit your name, talk title, and 2-3 sentence abstract on the [abstract submission page](#). Make sure the presentation type is "IGNITE".

PHOTO CONTEST INFO on the [meeting website](#)!

For additional questions, or if you are interested in volunteering contact Steering Committee Chairs for each organization.
