### PRESENTATION TYPES:

#### Ignite presentation guidelines:

Want to present at the Conference but do not want to prepare a full presentation or poster? These short to-the-point talks provide a great platform for people to quickly share project updates, notes from the field, or other important topics that don't require a full 20-minute presentation. IGNITE presentations are exactly 5 minutes and contain exactly 20 slides. The slides advance automatically after each slide is displayed for 15 seconds. IGNITE sessions have been well received at past meetings and are a fun way to get involved.

#### Oral presentation guidelines:

Oral presentations during regular sessions will be 20 minutes long, including 5 minutes for questions at the end of each talk. Oral presentations must be created using a MS PowerPoint file type (.ppt or .pptx) for PCs ONLY. Apple-based and other formats or file types will not be accepted. All PowerPoint presentations should be formatted for STANDARD screen dimensions using MS Office 16 or earlier version to ensure greatest compatibility with anticipated projection equipment and computer support. As always, give credit where credit is due by naming the image owner. If an image is copyrighted, please get permission from the image owner before using it.

#### Poster presentation guidelines:

Each poster should be contained within a 3 foot-high x 4 foot-wide area. Please contact poster committee chair Teal Waterstrat at [teal.waterstrat@gmail.com](mailto:teal.waterstrat@gmail.com) if you have additional questions about display boards and/or the size of your poster.
